Introduction & Purpose

The purpose of the *Drivers Best Practices Assessment (DBPA)* is to assist organizations in assessing their current supports and resources for quality use of selected programs or practices. Specifically, organizations can use it to:

- Identify strengths and opportunities for improvement in their current supports and resources;
- Select implementation best practices to strengthen staff competency and organizational practices; and
- Provide an implementation team with a structured process to develop an action plan and data to monitor progress.

Focus of the Assessment

The *Drivers Best Practices Assessment* is administered for a specific practice or program, rather than for the organization in general. The essential functions of the program or practice should be known and clearly defined. It is important to choose one practice or program and answer the questions with that selected practice or program in mind.

Administration Process & Key Roles

The administration of this tool is conducted by the Facilitator who introduces the Drivers Best Practices Assessment. The Facilitator introduces the assessment's purpose, provides an overview of the administration process and scoring, introduces concepts or big ideas measured, reads each item aloud and provides necessary clarification, and engages the team in the discussion and voting process. Information about key roles is provided in the table below:

Facilitator
An individual who has been trained in the administration process, has experience with the organization, and has a relationship with the respondent. The facilitator is responsible for: <ul style="list-style-type: none">• Leading discussion and adhering to the administration process; and• Contextualizing items for respondents or providing examples of the organization's work. The facilitator does not vote.
Note Taker
Key responsibility includes recording scores and ideas shared for action planning and any questions and issues that are raised during administration. The Note Taker does not vote.
Participants
Participants include implementation team members and other staff who have roles in implementation of the selected practice or program, are involved in different support activities or are in a leadership role for the organization and responsible for overseeing aspects of the implementation infrastructure. Participants vote on each item, discuss difference in scores, and achieve modified consensus.
Observer
Observers are invited with permission of the implementation team to learn about the process or the activities in the organization. Observers do not vote.

Scoring

The identified participants complete the Drivers Best Practices Assessment by discussing each item and coming to consensus on the final score for each item. The respondents score each item on a three-point scale (i.e., in place (2 points), partially in place (1 point), not in place (0 points), respectively) using a simultaneous and public voting process. This type of voting facilitates participation of all respondents and neutralizes any potential power influences. When asked to vote (e.g., “Ready, set, vote”), participants simultaneously hold up either two fingers to vote “Fully in Place,” one finger to vote “Partially in Place,” or a closed hand to vote “Not Yet.” Alternately, teams can use numbered cards to vote. If the team is unable to arrive at consensus, additional data sources documented in the *Scoring Rubric* can be used to prompt thinking and help achieve modified consensus. Modified consensus means that voters in the minority can live with and support the majority decision on an item. If modified consensus cannot be reached, the Facilitator guides the team to identify a later time for further discussion. The majority vote is recorded.

Preparation for the Administration

The following should be in place prior to administering the *Drivers Best Practices Assessment*.

- Facilitator should have knowledge of the concepts measured in the assessment and experience supporting organizations using implementation best practices;
- Implementation Team has agreed to administration and commitment of time (approximately one hour for preparation, two hours for completing the assessment, and one hour for action planning); and
- Materials have been assembled in preparation for administration, including:
 - » Blank copies (paper or electronic) of the DBPA rubric accessible to all respondents;
 - » Data sources (e.g., policies, procedures) to inform the assessment; and
 - » If relevant, previously completed administrations including reports.

Research Basis and Outcomes from Completion

The basis of the *Drivers Best Practices Assessment* is derived from implementation science research and the Active Implementation Framework of the Implementation Drivers (Fixsen, Naoom, Blase, Friedman, & Wallace, 2005; Metz, Bartley, Ball, Wilson, Naoom, & Redmond, 2014). Implementation Drivers are core components or building blocks of the infrastructure needed to support practice, organizational, and systems change. The Drivers emerged from a synthesis of commonalities among successfully implemented programs and practices (Fixsen et al., 2005). See Appendix A for information regarding validation of the measure.

The Implementation Drivers include:

- **Competency**– Strategies to develop, improve, and sustain practitioners’ ability to implement a program or practice as intended in order to achieve desired outcomes. Competency Drivers include: Fidelity, Selection, Training, and Coaching.
- **Organization**– Strategies for analyzing, communicating, guiding, and responding to data in ways that result in continuous improvement of supports for staff to use the selected program or practice. Organization Drivers include: Decision-Support Data System, Facilitative Administration, and Systems Intervention.

SCALES & SUBSCALES	ITEM #
Competency	Average of items
• Selection	1, 2, 3, 4, 5
• Training	6, 7, 8
• Coaching	9, 10, 11, 12
• Fidelity	13, 14, 15, 16
Organization	Average of items
• Decision-Support Data System	17, 18, 19, 20
• Facilitative Administration	21, 22, 23, 24, 25, 26, 27
• Systems Intervention	28, 29, 30
Total	Average of all items

Next Steps After Administration

The *Drivers Best Practices Assessment* was created to guide organizations as they develop the infrastructure to support use of selected programs or practices. As such, it is recommended that teams engage in the following activities after they complete each administration:

- Review and use the (a) Total score, (b) Scale Scores, and (c) Item Scores to identify areas of strength and need;
- Identify priorities to address within a plan;
- Develop and create an Action Plan (Appendix B) that defines immediate and short-term actions focusing on improving the infrastructure activities to support use of the selected program or practice.
- If this is a repeated administration, review and update existing plan to continue support for the selected program or practice.

Implementation Drivers are the key components of functional supports that enable a program's success.

For more information on the Implementation Drivers derived by the National Implementation Research Network, visit <http://nirn.fpg.unc.edu> and the Active Implementation Hub at <http://implementation.fpg.unc.edu>.

DRIVERS BEST PRACTICES ASSESSMENT:

Fidelity Checklist

PROTOCOL STEPS

+ : Yes

- : No

/ : Unsure or not applicable

1. SKILLED FACILITATOR

An individual with knowledge of implementation drivers and skill in administering the assessment is identified to facilitate.

2. RESPONDENTS INVITED

Facilitator invites participants, including Implementation Team members, who have a role in developing, monitoring, and improving implementation supports.

3. PROGRAM/PRACTICE IDENTIFIED

A well-defined program or practice is identified for the assessment.

4. MATERIALS PREPARED IN ADVANCE

Facilitator ensures that language in the assessment has been contextualized for the agency, copies (paper or electronic) are available for each participant, a note taker has been identified, and a room is set up with a laptop, projector, internet connection, and conference phone (video if possible) for any participants joining remotely.

5. OVERVIEW

Facilitator provides a review of the assessment, its purpose, and instructions for scoring the items.

6. CONSENT

Facilitator obtains informed consent from participants to collect and use their response to understand implementation status and inform action planning.

7. DOCUMENTATION

Facilitator documents date of the assessment, names and roles of participants, and the intervention being assessed.

8. ADMINISTRATION & INTRODUCTION

The Facilitator introduces the Implementation Drivers one at a time and provides an overview of the best practices of each Driver. Facilitator then asks the team to describe their current practices, asks the team which agency in the system has responsibility for the driver, and then directs the team to complete the items through discussion and consensus.

9. CONSENSUS

The team is given time to review, discuss, and come to consensus on the score for each item through a voting process. Facilitator answers questions, contextualizes, and provides clarification as needed for the respondents. The facilitator also seeks equity of voice from all participants to ensure a complete assessment of the context is understood.

10. RECORDING

The team documents each scoring decision electronically or on the scoring form used to record scores.

11. NOTE-TAKING

For items where there is further clarity or information needed, the Facilitator notes the question in the “Notes” section. A note taker captures the team discussion of each Implementation Driver in the relevant section.

12. DATA SUMMARY

After the last question has been asked and answered, the Facilitator or Note Taker generates the reports and distributes graphs of total scores.

13. REVIEW

While viewing the graphs, Facilitator prompts the team in a discussion of the results to identify strengths and opportunities. If a repeated administration, Facilitator highlights all of the subscales that moved in a positive direction and celebrates progress. Facilitator initiates a discussion of updates on achievements, progress, and major milestones or barriers that have occurred since previous administration.

14. PLANNING

If there is time to review the results and action plan, Facilitator engages the team in a prioritization process for identifying key areas for planning and needed actions. If there is not sufficient time for review of results and action planning, the Facilitator ensures that a date and time are set for the Review and Action Planning

15. CONCLUSION

Facilitator thanks the team for their openness and for sharing in the discussion.

NOTES

DRIVERS BEST PRACTICES ASSESSMENT:

Scoring Form

Use the *Scoring Form* below to capture the respondent team's final score for each item. If the respondent team is unable to arrive at consensus, additional data sources for each item are documented in the *Scoring Rubric*.

Facilitator(s):	Today's Date:
Practice/Program Being Assessed Today:	Individuals Participating in the Assessment:

Relevant Staff for Practice/Program:

Which staff are involved in use of the practice/program?
Which of those staff are considered in this assessment?

Note a rating for each item below: 2- IN PLACE 1- PARTIALLY IN PLACE 0- NOT IN PLACE

SELECTION

1. There is someone accountable for the recruitment and selection of relevant staff for the program or practice.	<input type="checkbox"/>
2. Job descriptions are in place for relevant staff that carry out the program or practice.	<input type="checkbox"/>
3. Individuals accountable for selection understand the skills and abilities needed for relevant staff.	<input type="checkbox"/>

DRIVERS BEST PRACTICES ASSESSMENT:

Scoring Form

Note a rating for each item below: 2- IN PLACE 1- PARTIALLY IN PLACE 0- NOT IN PLACE

4. Selection protocols are in place to assess competencies for relevant staff that carry out the program or practice.

5. Selection processes are regularly reviewed.

TRAINING

6. There is someone accountable for the training of relevant staff for the program or practice.

7. Agency staff provide or secure skill-based training for relevant staff on the program or practice.

8. Agency staff use training data for improvement.

COACHING

9. There is someone accountable for coaching of relevant staff for the program or practice.

10. Coaching is provided to improve the competency of relevant staff for the program or practice.

11. Agency staff use a coaching service delivery plan.

12. Agency staff regularly assess coaching effectiveness.

FIDELITY

13. There is someone accountable for the fidelity assessments of relevant staff for the program or practice.

14. The agency uses a fidelity assessment for the program or practice.

15. Agency staff follow a protocol for fidelity assessments.

16. Agency staff use fidelity data to improve program or practice outcomes and implementation supports.

DECISION-SUPPORT DATA SYSTEM

17. There is someone accountable for the decision-support data system.

18. Agency staff have access to relevant data for making decisions for program improvement.

DRIVERS BEST PRACTICES ASSESSMENT:

Scoring Form

Note a rating for each item below: 2- IN PLACE 1- PARTIALLY IN PLACE 0- NOT IN PLACE

19. Data are useful and usable.

20. Agency staff have a process for using data for decision-making.

FACILITATIVE ADMINISTRATION

21. Leadership sets aside resources to support the development of staff competency to deliver the program or practice.

22. Leadership develops and/or refines internal policies or procedures that support the program or practice.

23. Leadership makes changes in organization roles, functions, and structures as needed to accommodate the program or practice.

24. Leadership engages in regular communication with all staff and service users regarding the program or practice.

25. Leadership visibly promotes the importance of effectively implementing the program or practice.

26. Leadership problem-solves challenges to implement the program or practice effectively.

27. Leadership recognizes and appreciates staff contributions to implement the program or practice effectively.

SYSTEMS INTERVENTION

28. Leadership engages stakeholders and staff in developing a shared understanding of the need for the program or practice.

29. Leadership creates opportunities for stakeholders and staff to learn and design solutions together to support the program or practice.

30. Leadership regularly communicates with stakeholders regarding the program or practice.

Scoring Rubric

SELECTION

The Selection Driver refers to use of a purposeful process for selection of staff with the required skills, abilities, and other program/practice-specific prerequisite characteristics.

Tell me about your selection process(es). Record responses:			
What agency is primarily responsible for this driver? Record responses:			
1. There is someone accountable for the recruitment and selection of relevant staff for the program or practice.			<input type="checkbox"/>
2- IN PLACE	1- PARTIALLY IN PLACE	0- NOT IN PLACE	DATA SOURCE
A specific person is responsible for coordinating the quality and timeliness of recruitment and selection processes for relevant staff supporting the program or practice. This person is able to execute the responsibilities related to his/her role in the selection process.	A specific person is responsible for coordinating the quality and timeliness of recruitment and selection processes for relevant staff supporting the program or practice.	There is not a specific person responsible for coordinating the quality and timeliness of recruitment and selection processes for relevant staff supporting the program or practice. 2- IN PLACE	1- PARTIALLY IN PLACE	0- NOT IN PLACE	DATA SOURCE
<p>Data collected meet all of the following criteria to be useful and usable:</p> <ul style="list-style-type: none"> collected in a standardized way by trained staff; provide relevant information that can support improvement processes; available when relevant staff are making decisions; an important component of practice routines. 	<p>Data collected meet some but not all of the following criteria to be useful and usable:</p> <ul style="list-style-type: none"> collected in a standardized way by trained staff; provide relevant information that can support improvement processes; available when relevant staff are making decisions; an important component of practice routines. 	<p>Data collected do not meet any of the following criteria to be useful and usable:</p> <ul style="list-style-type: none"> collected in a standardized way by trained staff; provide relevant information that can support improvement processes; available when relevant staff are making descisions; an important component of practice routines. 	<p>Sample data team meeting notes</p>
20. Agency staff have a process for using data for decision-making.			
2- IN PLACE	1- PARTIALLY IN PLACE	0- NOT IN PLACE	DATA SOURCE
<p>Agency staff have a process for using data for decision-making that includes all of the following:</p> <ul style="list-style-type: none"> data are disaggregated, analyzed, and summarized at least quarterly; data summaries are communicated clearly in written reports to relevant staff; action plans are developed and monitored regularly to improve implementation supports and outcomes; data summaries and action plans are shared with key stakeholders. 	<p>Agency staff have a process for using data for decision-making that includes some but not all of the following:</p> <ul style="list-style-type: none"> data are disaggregated, analyzed, and summarized at least quarterly; data summaries are communicated clearly in written reports to relevant staff; action plans are developed and monitored regularly to improve implementation supports and outcomes; data summaries and action plans are shared with key stakeholders. 	<p>Agency staff do not have a process for using data for decision-making.</p>	<p>Documentation of processes used by agency to review data and make decisions</p> <p>Sample data reports</p> <p>Sample action plans</p>

Scoring Rubric **FACILITATIVE ADMINISTRATION**

Facilitative Administration refers to an agency’s leaders, managers, and implementation teams developing and using strategies that facilitate and support use of the program/practice, and that make the work of practitioners easier. For the purpose of this assessment, leadership is inclusive of your executive leaders, managers, and team members who are responsible for the program or practice.

Tell me about your agency’s/site’s organizational structure (e.g., leadership, management, teams). For the purpose of this assessment, leadership is inclusive of your executive leaders, management, and team members who are responsible for the program or practice.
Record responses:

21. Leadership sets aside resources to support the development of staff competency to deliver the program or practice.

2- IN PLACE	1- PARTIALLY IN PLACE	0- NOT IN PLACE	DATA SOURCE
Leadership sets aside resources to support staff competency development: <ul style="list-style-type: none"> • selection • training • ongoing coaching, and • monitoring fidelity 	Leadership sets aside some but not all resources to support staff competency development: <ul style="list-style-type: none"> • selection • training • ongoing coaching, and • monitoring fidelity 	Leadership does not set aside resources at all or does so in general (i.e., not for the specific program/ practice).	Budget

22. Leadership develops and/or refines internal policies or procedures that support the program or practice.

2- IN PLACE	1- PARTIALLY IN PLACE	0- NOT IN PLACE	DATA SOURCE
Leadership consistently develops and/or refines policies and procedures to make it possible to do the work of the program or practice.	Leadership develops and/or refines policies and procedures inconsistently.	Leadership does not develop and/ or refine policies and procedures to make it possible to do the work of the program or practice.	Budget Training Resources

23. Leadership makes changes in organization roles, functions, and structures as needed to accommodate the program or practice.

2- IN PLACE	1- PARTIALLY IN PLACE	0- NOT IN PLACE	DATA SOURCE
Leadership consistently makes changes to organization roles, functions, and structures.	Leadership inconsistently makes changes to organization roles, functions, and structures.	Leadership does not make changes to organization roles, functions, and structures.	Organizational chart Position descriptions

24. Leadership engages in regular communication with all staff and service users regarding the program or practice.				<input type="checkbox"/>
2- IN PLACE	1- PARTIALLY IN PLACE	0- NOT IN PLACE	DATA SOURCE	
Leadership communicates with all staff and service users and receives and responds to feedback from all staff and service users.	Leadership communicates to all staff and service users.	Leadership does not communicate regularly with staff and service users.	Communication plan Example communications	
25. Leadership visibly promotes the importance of effectively implementing the program or practice.				<input type="checkbox"/>
2- IN PLACE	1- PARTIALLY IN PLACE	0- NOT IN PLACE	DATA SOURCE	
Leadership speaks about and can answer questions regarding what it takes to effectively implement the program or practice.	Leadership speaks about the importance of implementing the program or practice but struggles to answer questions about what it will take to do so effectively.	Leadership struggles to speak about and answer questions regarding what it takes to effectively implement the program or practice.	Communication plan Example communications	
26. Leadership problem solves challenges to implement the program or practice effectively.				<input type="checkbox"/>
2- IN PLACE	1- PARTIALLY IN PLACE	0- NOT IN PLACE	DATA SOURCE	
Leadership consistently problem-solves challenges using data to effectively implement the program or practice.	Leadership inconsistently problem-solves challenges using data to effectively implement the program or practice.	Leadership does not problem-solve challenges using data to effectively implement the program or practice.	Meeting minutes Observations	
27. Leadership recognizes and appreciates staff contributions to implement the program or practice effectively.				<input type="checkbox"/>
2- IN PLACE	1- PARTIALLY IN PLACE	0- NOT IN PLACE	DATA SOURCE	
Leadership consistently recognizes and appreciates staff contributions to effectively implement the program or practice.	Leadership inconsistently recognizes and appreciates staff contributions to effectively implement the program or practice.	Leadership does not recognize and appreciate staff contributions to effectively implement the program or practice.	Meeting minutes Observations	

Scoring Rubric

SYSTEMS INTERVENTION

Systems Intervention refers to how agency leaders, managers, and implementation teams work with diverse and representative external partners. These partners include funders, organization’s board or governing entity, beneficiaries of the practice or program, and community partners. Leadership works with these partners to ensure availability of resources required to align and deliver the practice.

<p>Tell me about your systems intervention process(es). For the purpose of the assessment, stakeholders are external groups who are necessary for the successful use of the program or practice. Record responses:</p>			
<p>28. Leadership engages stakeholders and staff in developing a shared understanding of the need for the program or practice.</p>			<input type="checkbox"/>
2- IN PLACE	1- PARTIALLY IN PLACE	0- NOT IN PLACE	DATA SOURCE
<p>Leadership works together with all of following stakeholder groups and agency staff to develop a shared understanding of the need for a program or practice.</p> <ul style="list-style-type: none"> • Funders and/or Board • Beneficiaries of the practice or program (e.g., clients) • Community Partners 	<p>Leadership works together with at least one of following stakeholder groups and agency staff to develop a shared understanding of the need for a program or practice.</p> <ul style="list-style-type: none"> • Funders and/or Board • Beneficiaries of the practice or program (e.g., clients) • Community Partners 	<p>Leadership does not work with stakeholder groups and agency staff to develop a shared understanding of the need for a program or practice.</p>	<p>Meeting minutes</p> <p>Communications</p>
<p>29. Leadership creates opportunities for stakeholders and staff to learn and design solutions together to support the program or practice.</p>			<input type="checkbox"/>
2- IN PLACE	1- PARTIALLY IN PLACE	0- NOT IN PLACE	DATA SOURCE
<p>Leadership creates opportunities consistently to learn and design solutions together to support the program or practice.</p>	<p>Leadership creates opportunities inconsistently to learn and design solutions together to support the program or practice.</p>	<p>Leadership does not create opportunities to learn and design solutions together to support the program or practice.</p>	<p>Meeting minutes</p> <p>Agendas</p> <p>Communications</p>

30. Leadership regularly communicates with stakeholders regarding the program or practice.

2- IN PLACE	1- PARTIALLY IN PLACE	0- NOT IN PLACE	DATA SOURCE
<p>Leadership</p> <ul style="list-style-type: none"> • provides information to stakeholders regarding the program or practice; • receives information from stakeholders regarding the program or practice; • requests and responds to feedback from all stakeholders regarding the program or practice. 	<p>Leadership provides information to stakeholders regarding the program or practice.</p>	<p>Leadership does not engage in communication with stakeholders regarding the program or practice.</p>	<p>Communications Meeting minutes Observations</p>

Appendix A

Validation

Ogden et al. (2012) at the Atferdssenteret - Norsk senter for studier av problematferd og innovativ praksis - Universitet i Oslo (The Norwegian Center for Child Behavioral Development, University of Oslo) validated a previous version of the Drivers Best Practices items. Ogden et al. collected data to establish the reliability and validity of the Implementation Driver items. The researchers interviewed 218 practitioners, supervisors, and managers associated with two well-established evidence-based programs in Norway. The Cronbach alphas obtained in their study were: selection, 0.89; training, 0.91; coaching, 0.79; fidelity, 0.89; decision-support data systems, 0.84; facilitative administration, 0.82; systems intervention, 0.82; and leadership, 0.88.

Metz et al. (2014) assessed Implementation Drivers in a county social service system before, during, and after implementation capacity was developed. Low scores on the Drivers assessment at baseline were associated with low levels of fidelity use of the innovation. As implementation capacity was developed, the scores on the Drivers assessment increased (nearly doubled). Higher scores on the Drivers assessment were related to much higher fidelity use of the innovation.

Appendix B

Drivers Best Practices Assessment Action Plan Template

Contributors to Action Plan:	Date of Action Plan:
	Focus of DBPA:

Based on your review of the DBPA results, identify at least 2-3 priorities to address within an action plan. Create an Action Plan using the template below that defines immediate and short-term actions focusing on improving the infrastructure activities to support use of the selected program or practice.

AREA	ACTIONS NEEDED	BY WHO	BY WHEN
